

ELEVATED DOG BOWL

Sharon C. Mehrman Woodworking is a one-woman workshop in Florence that produces handcrafted heirloom-quality furniture and home furnishings from sustainably harvested wood. The clear, articulate lines of Mehrman's designs are infused by tradition. The Elevated Dog Bowl is made of solid cherry wood with mortise and tenon joinery and comes with a stainless steel bowl. Mehrman's love of typography shows in her playful type designs, which are skillfully carved by hand, and can be added to personalize these bowls. Available in other woods and sizes. Find these products and more at sharonmakesfurniture.com, or go to the Twist fair May 6 and 7 at the Northampton Center for the Arts.
